High School Course Catalog

The purpose of this course catalog is to provide students and parents information regarding high school course offerings, graduation requirements, and college admissions guidelines. This catalog is designed to offer students descriptions about the courses we offer and what transcript category they fulfill. It is also a helpful resource to find out prerequisites for certain courses, read a description about particular courses and to see if the class has been approved by the UC and CSU system. It is our intended goal that you will be empowered to make informed decisions about what classes you would like to take as well as what classes you need for graduation.

A Message for Student and Parents

This catalog is designed to provide our students and their parents/guardians pertinent information regarding the courses we offer at San Diego Virtual School. It also contains SDVS' graduation requirements and college admission guidelines. This catalog is designed to assist students in becoming informed about our courses and how to plan the most appropriate program for the next school year as well as the remainder of high school. The student's teacher, academic counselor, parents/guardians and student should discuss each student's selections prior to or during the pre-registration process. Should you need any additional information regarding courses offered at San Diego Virtual School, please contact your student's teacher. Courses may be modified or cancelled at the discretion of the administration.

General Information

Prerequisites: Many of San Diego Virtual courses have prerequisites. A prerequisite may be, but is not limited to, a qualifying course, level of performance, prior enrollment in the lower level course, or teacher approval. Please see the course descriptions to determine what prerequisite is required for a particular course.

Withdrawal from a Class: Please see the Withdrawal Policy in our Parent/Student Handbook.

College Concurrent Enrollment Courses: San Diego Virtual School strongly suggests academic ready students should enroll in community college courses. Students who wish to take courses at a community college for high school credit must have **prior written approval** from San Diego Virtual School's college counselor or director's designee. Additional requirements to enroll in community college courses can be found in our Student/Parent Handbook. At the successful completion of the off campus course, it is the student's responsibility to provide the registrar with an official transcript from the community college to receive credit on their high school transcript.

Attendance: San Diego Virtual students must complete assignments daily to be considered in attendance. Absences or lack of school work should be avoided whenever possible.

Credits: Students receive 5 credits (unless otherwise noted on the master agreement) for each semester course that is successfully completed with a passing grade. Students repeating a course to improve his/her grade will not receive an additional 5 credits for the course.

California High School Proficiency Exam (CHSPE): The CHSPE is a program established by California Law (Education Code Section 48412) that allows a student to test in the areas of English-Language Arts and Mathematics. Upon successful completion of the exams, a student will be awarded a "Certificate of Proficiency" by the California State Board of Education. Please visit www.chspe.net for more information or a teacher for testing information.

Graduation Requirements and Summary of CSU & UC Eligibility Requirements

High School Subject Area	Track 1 SDVS Graduation Requirements	Track 2 SDVS graduation	Track 3 SDVS Graduation
<p>A full-time student must be enrolled in a minimum of 20 credits per semester and grade level career class.</p>	<p>All SDVS must meet the following course requirements:</p>	<p>PLUS</p> <p>CSU Requirements for Freshman Admission [all courses should be chosen from UC-approved "a-g" list]</p>	<p>PLUS</p> <p>UC Requirements for Freshman Admission [all courses must be chosen from UC-approved "a-g" list] Minimum GPA = 3.0</p>
a - Social Science	Three years of history/social science, including one year of U.S. history & geography; one year of world history, culture, and geography; and one semester each of American government and economics. (30 credits)	Two years, including one year of U.S. history or U.S. history and government and one year of other approved social science. (20 credits)	Two years of history/social science, including one year of world history and one year of U.S. history or one-half year of U.S. history and one-half year of civics or American gov. (20 Credits)
b - English	Four years of approved courses (40 credits)	Four years of approved courses (40 credits)	Four years of approved courses (40 credits)
c - Mathematics	Two years, including Algebra I. (30 credits)	Three years, including algebra, geometry, and intermediate algebra. (30 credits)	Three years, including algebra, geometry, and intermediate algebra. (30 credits) four years rec.]
d - Science	Two years, including biological and physical sciences. (20 credits)	Two years, including one year of biological science and one year of physical science with lab. (20 credits)	Two years with lab required, chosen from biology, chemistry, and physics. (20 credits) [Three years recommended]
e - Language Other than English	<p>One year of either</p> <p>Language Other Than English</p> <p>or</p> <p>Visual/Performing Arts (10 credits)</p>	Two years of the same Language Other Than English. [Waiver possible thru examination.] (20 credits)	Two years of the same Language Other Than English. Courses in languages other than English taken in the 7th and 8th grades may be used to fulfill part of this requirement if accepted as equivalent to SDVS courses. (20 credits) [3 years recommended]
f - Visual & Performing Arts		A single yearlong approved arts course from a single VPA discipline: dance, drama/theater, music or visual art. (10 credits)	A single yearlong approved arts course from a single VPA discipline: dance, drama/theater, music or visual art. (10 credits)
g - Electives	<ul style="list-style-type: none"> • 70 credits 	One year (equivalent of two semester courses) required; <u>must</u> be chosen from "a-g" list. (10 credits)	One year (equivalent of two semester courses) required; <u>must</u> be chosen from "a-g" list. (10 credits)
Phys. Educ.	Two years (20 credits)		
Total Credits	220		

Four Year Planning

When planning course selections, please be sure that a minimum total of 220 academic credits are completed for graduation. Students must be enrolled in grade level English, History, Science and Math. Students must complete 220 credits to graduate and it is recommended that a student enroll in at least 30 credits per semester. A student must be enrolled in at least 20 San Diego Virtual credits per semester unless their credits for graduation are less than 20.

	9 th	10 th	11 th	12 th	Total required for SDVS graduation
Social Studies (a)		World History	US History	Am. Govt/ Economics	30
English (b)	English 1	English 2	English 3	English 4	40
Mathematics (c)	Algebra 1 or Geometry	Algebra 1 or Geometry or Algebra 2	Algebra 1 or Geometry or Algebra 2, Consumer math or Pre Calculus	Algebra 1 or Geometry or Algebra 2 or Pre Calculus or Calculus or Consumer Math	30
Science (d)	Earth/Space Science	Life Science or Biology	Chemistry	Environmental Science or Physics	20 [10 in biological science and 10 in physical science]
Visual Perform. Arts/ LOTE (e & f)	Note: UC/CSU eligibility requires 10 credits in a single discipline of VPA in addition to 2 years of a Language other than English. It must be the SAME language.				10
	Recommend LOTE 1	Recommend LOTE 2	Recommend Art Class		
Electives (g)	An elective course is any course taken in addition to specified department graduation requirements.				70
	2 electives (recommended health and comp lit)	2-4 electives	2-4 electives	2-4 electives	
PE	20 credits of PE required for graduation; additional PE will count toward elective credits.				20
Total Credits required for graduation					220

University of California Approved Courses *

Sociology

*Please visit <https://hs-articulation.ucop.edu/agcourselist#/list/details/1894/> for a complete course list.

*Community College Courses: It is the student's responsibility to verify that community college courses meet the UC "a-g" eligibility requirements.

In order for students to receive UC a-g designation, the midterms, finals and laboratory experiments must be performed onsite. Courses in the course catalog denoted with a "- P" are UC "a-g" approved courses. Please see www.ucdoorways.com to verify all SDVS courses for UC "a-g" approval.

Students wishing to take UC "a-g" qualifying science and art classes will need to attend the required onsite science lab or art lab.

NCAA Classes

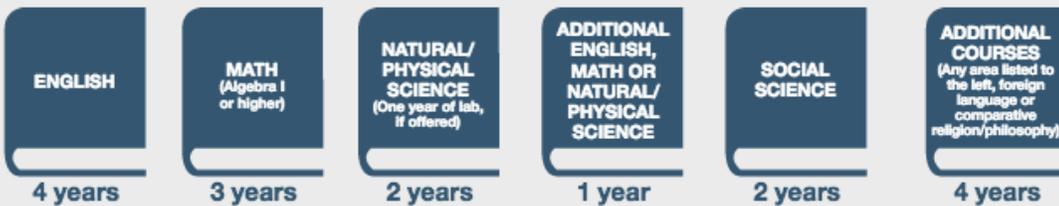

The NCAA, National Collegiate Athletic Association is the organization that is dedicated to the well-being and lifelong success of college athletes. It is the place all college bound athletes need to familiarize themselves and register with in order to be eligible for college D1, D2 and D3 sports. All athletes....[start here!](#) You need to be certified by the NCAA Eligibility Center to compete at an NCAA Division I or II school. Students should create a Certification Account and the NCAA will guide them through the process. *You need to create a Certification Account to make official visits to Divisions I and II schools or to sign a National Letter of Intent.*

DIVISION I ACADEMIC REQUIREMENTS

College-bound student-athletes will need to meet the following academic requirements to practice, receive athletic scholarships, and/or compete during their first year.

Core-Course Requirement

Complete 16 core courses in the following areas:

San Diego Virtual Schools Approved Classes*

Students may not take credit recovery to satisfy NCAA requirements

- English 1, 2, 3, 4
- World History, US History, Government, Economics, Geography
- Algebra 1, Geometry, Algebra 2, PreCalculus, Calculus, Stats and Prob.
- Biology, Chemistry, Earth Science
- Spanish 1, 2, 3
- Creative Writing
- Gothic Literature
- Psychology
- Sociology

* Courses are subject to change so please check the official NCAA site for the most up to date list of [San Diego Virtual Schools NCAA approved classes](#).

College/Career Information

There are many websites that offer information to help students in their college search as well as finding scholarships and applying for financial aid. San Diego Virtual School's career program will explore the various post-secondary options for our students. Please contact our college and career counselor or school counselor if you have any questions. If you need to refer to our CEEB code (school code), it is **054581**.

COURSE OFFERINGS

Catalog Key:

-P : course qualifies as a UC "A-G" requirement

Prerequisites: a course that must be satisfied prior to enrolling in the course.

English/Language Arts

English 1A/B-P

Credits: 10

Level: 9th grade

Prerequisites: None

English I introduces the elements of writing poems, short stories, plays, and essays. Grammar skills are enhanced by the study of sentence structure and style and by student composition of paragraphs and short essays. Topics include narration, exposition, description, argumentation, punctuation, usage, spelling, and sentence and paragraph structure.

English 2A/B-P

Credits: 10

Level: 10th grade

Prerequisites: None

English 2 focuses on using personal experiences, opinions, and interests as a foundation for developing effective writing skills. Skills acquired in English 1 are reinforced and refined. Literary models demonstrate paragraph unity and more sophisticated word choice. A research paper is required for completion of course. Topics include grammar, sentence and paragraph structure, organizing compositions, and the research paper.

English 3A/B-P

Credits: 10

Level: 11th grade

Prerequisites: None

English 3 explores the relation between American history and literature from the colonial period through the realism and naturalism eras. English 3B explores the relation between American history and literature from the modernist period through the contemporary era, and presents learners with relevant cultural and political history.

English 4A/B-P

Credits: 10

Level: 12th grade

Prerequisites: None

In keeping with the model established in English 3, these courses emphasize the study of literature in the context of specific historical periods, beginning with the Anglo-Saxon and medieval periods in Britain. Each lesson includes tutorials and embedded lesson activities that provide for a more engaging and effective learning experience. Semester B covers the romantic, Victorian, and modern eras.

History/Social Science

World History A/B-P

Credits: 10

Level: 10th grade

Prerequisites: None

World History comprehensive overview beginning with early civilizations in the Middle East, India, and China, the combined eight units conclude with a survey of the world since 1945. Other topics include a review of the Byzantine Empire, the resurgence of Europe, and the impacts of nationalism and democracy. The courses are flexible, offering optional topics, an array of learning resources, and a variety of engaging activities.

U.S. History A/B-P

Credits: 10

Level: 11th grade

Prerequisites: None

This course introduces students to early U.S. History and also provides them with an essential understanding of how to read, understand, and interpret history. For example, the first unit, The Historical Process, teaches reading and writing about history; gathering and interpreting historical sources; and analyzing historical information. While covering historical events from the founding events and principles of the United States through contemporary events, the course also promotes a cross-disciplinary understanding that promotes a holistic perspective of U.S. History.

American Government-P

Credits: 5

Level: 12th grade

Prerequisites: None

Units include study of the foundations of American government and the American political culture, with units 2 and 3 covering the U.S. constitution, including its roots in Greek and English law, and the various institutions that impact American politics.

Economics-P

Credits: 5

Level: 12th grade

Prerequisites: None

It begins with providing a basic understanding of the U.S. economy and its relationship to the world economy. It then covers macro issues such as government and the economy and micro issues such as entrepreneurship and consumer issues. Satisfies a “g” elective.

Mathematics

Algebra Readiness A and B

Credits: 5 credits each

Level: 9th grade

Prerequisites: by permission only

This course focuses on reviewing and applying arithmetic skills in order to be ready to take Algebra 1. It is designed for a student who needs extra assistance in mastering Algebraic concepts. This course counts as a mathematic elective.

Algebra 1A/B -P

Credits: 5 credits each

Level: 9th grade

Prerequisites: None

A comprehensive study of all of the concepts of Algebra I required to meet state and Common Core standards. With multiple opportunities for practice and review, students easily master skills including variables, linear equations, quadratic equations, function notation, and exponential functions.

Geometry A/B-P

Credits: 5 credits each

Level: 9th - 12th grades

Prerequisites: Algebra 1

A comprehensive examination of geometric concepts, each lesson provides thorough explanations and builds on prior lessons. Step-by-step instruction and multiple opportunities for self-check practice develop skills and confidence in students as they progress through the course. The course features animations, which allow students to manipulate angles or create shapes, such as triangles, engage students in learning and enhance mastery.

Algebra 2A/B-P

Credits: 5 credits each

Level: 10th - 12th grades

Prerequisites: Algebra 1, Geometry

Algebra 2 expands on the algebraic functions learned in Algebra I by bringing in concepts of linear, quadratic, and simultaneous equations; laws of exponents; progression; binomial theorems; and logarithms. The course units are competency-based. Learners experience new situations which they practice in a real-world environment and match to previous learning.

Pre-Calculus A/B-P

Credits: 5 credits each

Level: 9th - 12th grades

Prerequisites: Algebra 1, Geometry, Algebra 2

Pre-Calculus builds on algebraic concepts to prepare students for calculus. The course begins with a review of basic algebraic concepts and moves into operations with functions, where students manipulate functions and their graphs. Pre-Calculus also provides a detailed look at trigonometric functions, their graphs, the trigonometric identities, and the unit circle. Finally, students are introduced to polar coordinates, parametric equations, and limits.

Calculus A/B

Credits: 5 credits each

Level: 10th - 12th grades

Prerequisites: Algebra 1, Geometry, Algebra 2, Pre-Calculus

This course grounds the study of calculus in real-world scenarios and integrates it with the four STEM disciplines. The first semester covers functions, limits, derivatives and the application of derivatives. The course goes on to cover differentiation and anti-differentiation, applications of integration, inverse functions, and techniques of integration.

Introduction to Probability and Statistics-P

Credits: 5

Level: 10th - 12th grades

Prerequisites: Algebra 1, Geometry, Algebra 2, Pre-Calculus,

This one semester course is designed for students in grades 11 and 12 who may not have attained a deep and integrated understanding of the topics in earlier grades. Students acquire a comprehensive understanding of how to represent and interpret data; how to relate data sets; independent and conditional probability; applying probability; making relevant inferences and conclusions; and how to use probability to make decisions.

Consumer Math A/B

Credits: 5 each

Level: 11th - 12th grades

Prerequisites: Algebra 1

When you buy goods and services, you are acting as a consumer. For example, you might buy a sandwich for lunch or pay a hair stylist for a haircut. Consumer Mathematics is a course designed to teach you about real-life financial situations that require everyday math skills. As a consumer, you will be earning, spending, and saving money. This course will help you make educated and responsible decisions regarding your finances.

Accuplacer Math AB/C

Credits: 5 each
Level: 12th grades
Prerequisites: None

This is a two semester course that prepares a student to take the community college math placement test. This course reinforces algebraic concepts.

Science

Earth Science A/B-P

Credits: 5 each
Level: 9th grade, unless requirement not met
Prerequisites: None

This course surveys basic physical sciences such as geology, biology, meteorology, oceanography, astronomy, botany, and physics and their impact on the earth. Students are guided to a better understanding of how the earth and the universe are structured. This course satisfies the high school physical science graduation requirement.

Biology A/B-P

Credits: 5 each
Level: 10th grade, unless life science requirement met
Prerequisites: None

Students develop a clear understanding of the sometimes complex concepts at the root of life science. Course units cover genetics and evolution, cell structure, multiple units on the diversity of life and on plant structure and function. For example, the unit on cell structure and specialization drills down into mitosis, meiosis, and cancer and carcinogens. This course satisfies the high school biological science graduation requirement and satisfies the “d” UC requirement

Chemistry A/B -P

Credits: 5 each
Level: 9th -12th grade
Prerequisites: Algebra 1

The course surveys chemical theory, descriptive chemistry, and changes in matter and its properties. Students learn how to classify different states of matter as well as how atoms and compounds are structured. Additional areas of discussion include chemical energetics, measurements, bonding, stoichiometry, ionization, hydrocarbons, oxidation and reduction. A variety of simple lab experiments are included. This course satisfies the high school physical science graduation requirement and satisfies the “d” UC requirement.

Environmental Science A/B-P

Credits: 5 each

Level: 9th -12th grade

Prerequisites: Algebra 1

In Environmental Science, Semester A, you will describe abiotic and biotic factors of an ecosystem. You will describe the importance of biodiversity for the survival of organisms and the importance of the food chain and the food web in the ecosystem. You will learn about ecological interactions and succession. You will discuss the effects of climate change and explore different types of adaptation. Further, you will describe the steps of the water cycle, and discuss how carbon, oxygen, nitrogen, and phosphorous cycle in the global environment. In Environmental Science, Semester B, you will learn about the factors that affect populations. You will explore human population growth and its implications. You will describe the factors that lead to unequal distribution of natural resources on Earth. You will discuss waste management. You will describe different forms of pollution, and explore ways to control pollution. You will explore various nonrenewable and renewable energy sources. Further, you will learn about benefits of environmental policies and identify factors that affect sustainable development. This course satisfies the high school physical science graduation requirement and satisfies the “d” UC requirement.

Physics A/B-P

Credits: 5 each

Level: 9th -12th grade

Prerequisites: Algebra 1

Co-requisite: Algebra 2

In Physics, students explore the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. This course satisfies the high school physical science graduation requirement and satisfies the “d” UC requirement.

Visual and Performing Arts

Art 1A/B-P

Credits: 5 each

Level: 9th -12th grade

Prerequisites: None

Art 1A will cover the elements of art and Art 1B will cover the principles of design. It requires an onsite lab course as well to satisfy the UC fine art requirement. The course will explore the main concepts of art, expression, and creativity as it helps students answer questions such as what is art; what is creativity; and how and why people respond to art. UC designation for the “f” requirement.

Digital Photography 1/2-P

Credits: 5 each

Level: 9th -12th grade

Prerequisites: None

Digital Photography focuses on the basics of photography, including building an understanding of aperture, shutter speed, lighting, and composition. Students will be introduced to the history of photography and basic camera functions. Students use basic techniques of composition and camera functions to build a personal portfolio of images, capturing people, landscapes, close-ups, and action photographs. They will also examine various aspects of professional photography, including the ethics of the profession, and examine some of the areas in which professional photographers may choose to specialize, such as wedding photography and product photography. Students also learn about some of the most respected professional photographers in history and how to critique photographs in order to better understand what creates an eye-catching photograph. UC designation for the “f” requirement.

Music Appreciation A/B-P

Credits: 5 each

Level: 9th -12th grade

Prerequisites: None

Music Appreciation introduces you to the elements of music and musical notation. It also teaches you about the history and progression of music from ancient times to the modern classical period. It will expose you to the evolution of American folk music, and other musical forms of the Twentieth Century, such as Ragtime, Jazz, Swing, Creole, Blues, Pop, Rock and Roll, and Rock music. It will go over the influence of music on society and culture, relationship between music and other art forms, and the role of music in advertising and the electronic media. Then it discusses various compositional and expressive devices, and methods of evaluating concerts as well as career paths in music, including performing, composing, producing, and arranging. UC designation for the “f” requirement.

Art History and Appreciation-P

Credits: 5

Level: 9th - 12th grades

Prerequisites: none

Art has played a significant role in every major civilization throughout the history of man. The emergence of different art forms often reflects the values that a civilization deems important: religion, labor, love, political change, or even commerce. Since artwork and cultural values are so closely related, studying art is a compelling way to learn about the people who produced it. UC designation for a “g” elective.

Fashion and Interior Design-P

Credits: 5

Level: 9th -12th grade

Prerequisites: None

Do you have a flair for fashion? Are you constantly redecorating your room? If so, the design industry might just be for you! In this course, you'll explore what it is like to work in the industry by exploring career possibilities and the background that you need to pursue them. Get ready to try your hand at designing as you learn the basics of color and design then test your skills through hands-on projects. In addition, you'll develop the essential communication skills that build success in any business. By the end of the course, you'll be well on your way to developing the portfolio you need to get your stylishly clad foot in the door of this exciting field. UC designation for a "g" elective.

Independent Study Drama

Credits: 5

Level: 9th - 12th grades

Prerequisites: by approval only, may be repeated for credit

Independent Study drama is designed for students who are receiving formal theater training outside of San Diego Virtual School and will participate in a performance. Student must provide original performance sample.

Independent Study Music

Credits: 5

Level: 9th - 12th grades

Prerequisites: by approval only, may be repeated for credit

Independent Study Music is designed for students who are receiving formal music training outside of San Diego Virtual School. Students must provide original recording or performance sample.

Independent Study Art

Credits: 5

Level: 9th - 12th grades

Prerequisites: by approval only, may be repeated for credit

Independent Study Art is designed for students who are completing art outside of San Diego Virtual School. Students are required to turn in their original art work.

Health and Physical Education

Health-P

Credits: 5

Level: 9th - 12th grades

Prerequisites: None

Everyone needs to take care of their body, but we aren't necessarily born with the knowledge of how to go about it. It's important to invest time and energy into understanding what it means to be healthy. There are many activities you can engage in which are dangerous for your long-term health, so you need to know how to identify and avoid these activities. It's also important to identify lifestyles which will lead to a longer, more enjoyable life. This course will guide you through lifestyle choices you will make which will ultimately impact your life in meaningful ways. UC designation for a "g" elective.

Physical Education CORE

Credits: 5

Level: 9th - 12th grades

Prerequisites: None

This course's three units include Getting Active, Improving Performance, and Lifestyle. Unit activities elevate students' self-awareness of their health and well-being while examining topics such as diet and mental health and exploring websites and other resources. In addition to being effective as a stand-alone course, the components can be easily integrated into other health and wellness courses.

PE- Fall and Spring

Credits: 5 each

Level: 9th - 12th grades

Prerequisites: None

May be repeated for credit

The emphasis for this class is to allow students to explore physical activities that they plan to pursue for recreation after graduation. Students will have the opportunity to participate in activities of their choice and submit daily logs.

Language Other Than English (L.O.T.E)

Spanish 1A/B -P

Credits: 5 each

Level: 9th - 12th grades

Prerequisites: None

Spanish is the most spoken non-English language in U.S. homes, even among non-Hispanics, according to the Pew Research Center. There are overwhelming cultural, economic, and demographic reasons for students to achieve mastery of Spanish. Spanish 1A and B engage students and use a variety of activities to ensure student engagement and to promote personalized learning. These courses can be delivered completely online, or implemented as blended courses, according to the unique needs of the teacher and the students.

Spanish 2A/B-P

Credits: 5 each

Level: 9th - 12th grades
Prerequisites: Spanish 1

Spanish 2A and B utilize three assessment tools that are designed specifically to address communication using the target language: Lesson Activities, Unit Activities, and Discussions. These tools help ensure language and concept mastery as students grow in their understanding and use of Spanish. Learning games specifically designed for language learning are used and can be accessed on a wide variety of devices.

Spanish 3A/B-P

Credits: 5 each
Level: 9th - 12th grades
Prerequisites: Spanish 1 and 2

Students in Spanish 3 will continue to develop the basic linguistic skills acquired in the second year. The development of oral and listening proficiency will be further pursued, placing increased emphasis on reading and writing skills. Students will be required to engage in more direct use of the language as a means of communication.

Electives

Android Mobile App Development

Credits: 5
Level: 9th-12th grade
Prerequisites: None

This course is designed to introduce students to the process involved in creating a mobile app. Students learn about history of and upcoming trends in mobile app development. They explore career options in mobile app development and describe skills and training required for mobile app development. They also describe the types of apps available in the market. Moreover, they learn about platforms for developing Android mobile apps. Further, they learn about the Android development environment.

Architecture and Construction A/B

Credits: 5 each
Level: 9th-12th grade
Prerequisites: None

This interactive course empowers students with the knowledge to appreciate and evaluate career opportunities in architecture and construction. With an emphasis on developing critical thinking skills, this course includes a variety of activities as students learn about structures and loads, materials and costs, urban design, and other aspects of these fascinating career opportunities. This easy-to-manage course will help build a solid foundation for their career options.

Artificial Intelligence

Credits: 5

Level: 9th-12th grade

Prerequisites: None

This course is designed to help a student understand the evolution of Artificial Intelligence and its scope in the future. This course also describes how AI is used in field such as games, speech recognition and computer vision. You will learn about the different types of intelligent agents and their environments.

ASB (onsite class)

Credits: 5

Level: 9th-12th grade

Prerequisites: None

San Diego Virtual School's Associated Student Body. Join a group of motivated students who would like to build a school culture at SDVS. This course is designed to empower students to become effective leaders both on campus and in their own community. Students will explore various components of what it means to be an effective group member and leader through planning and implementing activities, programs, and events for SDVS. Students are required to participate in monthly meetings.

Career 9/10

Credits: 5

Level: 9th-10th grade

Prerequisites: None

This one-semester course is intended as a practical, hands-on guide to career exploration and planning. This course has 16 lessons organized into four units, plus four Unit Activities. Each lesson contains one or more Lesson Activities. The course ends with a Course Activity in which you will create two essential components of a career portfolio: a résumé and a cover letter for applying for an entry-level job in your chosen career.

Career 11/12

Credits: 5

Level: 11th-12th grade

Prerequisites: None

Students will take assessments that cover the interests and skills and help them gather careers and schools that suit their needs for their post-secondary experience.

Child Development and Parenting A/B

Credits: 5 each

Level: 9th-12th grade

Prerequisites: None

This course covers fundamental concepts of parenting and child rearing. It also covers essential communication skills related to parent-child interaction. In addition, the course covers workplace skills, such as positive work ethics, integrity, and resource management. It also covers some recent trends in parenting. Course B is intended to help you familiarize yourself with the various stages of child development as well as the factors that obstruct healthy development of a child. It also explains the development, health, nutrition, and safety of children at various stages. In addition, the course covers career opportunities in the field of child care and development.

Computer Literacy A/B

Credits: 5 each

Level: 9th-12th grade

Prerequisites: None

Computer Literacy is a practical, hands-on course to help you understand some of the computer skills required during your college education or when pursuing a career. The A portion of this class will cover basic computer hardware and software and productivity applications such as word processing software, spreadsheet software, and presentation software. This course also covers the Internet and emerging technologies. This course will cover advanced concepts, such as computer networks, complex operations in spreadsheet and database programs, and the process of creating a website.

Cosmetology A/B

Credits: 5 each

Level: 9th-12th grade

Prerequisites: None

Interested in a career in cosmetology? This course provides an introduction to the basics of cosmetology. Students will explore career options in the field of cosmetology, learn about the common equipment and technologies used by cosmetologists, and examine the skills and characteristics that make someone a good cosmetologist. Students will also learn more about some of the common techniques used in caring for hair, nails, and skin in salons, spas, and other cosmetology related businesses.

Creative Writing-P

Credits: 5

Level: 11th-12th grade

Prerequisites: None

Creative writing will help you learn and sharpen your skills as a creative writer. The course describes the process of and motivations for creative writing and answers basic questions about creative writing. (“What makes for a budding creative writer?” “What strengths should I build on to become one?” “Where should I look for ideas?”). You will learn about the scope of creative writing and its genres. You will also look at prose and poetry and explore the elements of fiction, stage, film and TV. The last portion introduces you to the publishing industry—the way it works and the way you should approach it. You will also learn about marketing and promotion planning for your work.

Culinary Art A/B-P

Credits: 5 each

Level: 9th-12th grade

Prerequisites: None

The A course covers the history and development of the culinary arts; the basics of nutrition; and health, safety, and sanitation. Service Learning Project-Packet

Credits: 5
Level: 9th-12th grade
Prerequisites: None
May be repeated for credit

The Service Learning Project course introduces students to the idea of serving their local communities. Students are asked to identify needs in their communities and then design projects around solutions for those needs. Students will participate in community service, volunteer work, or another service learning experience of their choice in order to address the needs they identified. They are encouraged to explore possible career paths as well as assess their own strengths and weaknesses in a variety of areas. Finally, students will reflect on their experiences and discover how to apply them to other areas of their lives, including their academics. *To get credit for this course, students must participate in community service, volunteer work, or other service learning activity for a total of 40 hours.*

Social Issues-P

Credits: 5
Level: 11th-12th grade
Prerequisites: None

Social issues affect everyone—they are issues which revolve around governmental policy and enforcement of laws on the civilian population. These laws and policies can have any number of significant outcomes. They can protect minorities and women from discrimination, regulate drug use, give aid to the poor, provide guidelines for education, and much more. Social issues are often controversial and debated, so having the ability to form an educated opinion on them is an important part of your citizenship.

Sociology-P

Credits: 5
Level: 9th-12th grade
Prerequisites: None

You will explore the evolution of sociology as a distinct social science, learn about sociological concepts and processes, and discuss how the individual relates to society. You will also learn about the influence of culture, social structure, socialization, and social change in today's society.

Web Technologies A/B-P

Credits: 5 each
Level: 9th-12th grade
Prerequisites: None

Whether they know it or not, almost all of your students have an interest in web design. This course takes them inside the essentials of web design and helps them discover what makes a site truly engaging and interactive. Lessons such as Elements of Design, Effects of Color, and Typography help them understand the elements of effective and dynamic web design. The course

covers the basics of HTML, CSS, and how to organize content, and helps to prepare them for a career in web design.

Credits: 5

Level: 10th-12th grade

Prerequisites: None

Women's studies is a course that is designed to help you understand the concepts of gender and gender roles, and the social discrimination that exist on the basis of gender. You will learn about the history of feminism and the feminist theories. You will explore the role of media in reinforcing gender stereotypes. The course ends with a discussion on the possible challenges in the path toward creating an equal society.

Credit Recovery Courses

San Diego Virtual School offers credit recovery courses for 11th and 12th graders who are behind in credits and not on track for graduation with their graduating class. The counselor, teacher, student and parent/guardian should discuss the option of credit recovery if applicable. In order to be eligible for a credit recovery course, you must have already taken the course and not received any credits for it. These courses are modified and will be denoted on the student's transcript with a CR. These courses are not to be used to improve a student's GPA. Students wishing to enter the military should speak with their recruiter regarding credit recovery courses. Students interested in applying directly to a four-year university should meet with their Counselor prior to enrolling in a CR course. CR courses do not meet the UC a-g requirements. The NCAA does not accept CR courses for collegiate sports eligibility; therefore completion of required courses through credit recovery may negatively affect a student's eligibility for collegiate sports. Each course is 5 credits. Please see course descriptions in the catalog for each course.
